Even if the big consultancies seem to suggest: PowerPoint is not an Operating System!

“Ecce! Knowledge is the daughter of experience.” (Leonardo da Vinci)

Axel Angeli

is a top-level project, change manager and trusted C-level advisor with deep hands-on knowledge in all aspects of IT and Industries 4.0 and helps enterprises and governments to get the best return out of their investment.

In over 35 years SAP experience he got a reputation as SAP guru for leading and rescuing complex international SAP projects and implement integration and migration from and to SAP S4/HANA software, Microsoft, INFOR, etc.

He is the right one if you want an experienced hands-on expert for SAP and Industries 4.0 to get working pragmatic solutions for nearly every problem in a fast and agile style and for lesser costs than the big consultancies.

Industries 4.0 and Cognitive Digital Twins

As an early protagonist of the Industries 4.0 paradigm, he evangelizes and teaches with his distinguished crew the benefits of Cognitive Digital Twins and Artificial Intelligence. He helps emerging countries improving education and enabling them to build AI driven sustainable digital ecosystems for Health Care 4.0, Smart Nature, Mobility 4.0, and Agriculture 4.0.

Current ongoing projects:

- GEM -German Education Media, an incubator and publishing house to provide education media based on AI for technology education.
- Woven Africa – an initiative to help the young people and small farmers in Africa to industrialize Agriculture 4.0.

Current Engagements

- Founder and Owner of Logosworld Technology
- Co-Founder of 50 Experts Global Advisors Alliance
- Brand ambassador for the Electronic and Software Export Promotion Council of India (ESC).
- Co-Founder of Woven Africa movement for education in Agriculture 4.
- Member of FICOTA advisory board
- Technical Advisor on Industries 4.0 for the ACP (African-Caribbean-Pacific Group of Nations)
